## **CD 6: Mental Toughness: Perseverance & Persistence**

Build the mental toughness and resilience with two key behaviours that you may well have been doing all your life - Persevering and Persisting.

How many of us ask: why aren't there more hours in the day?

What other life lessons do I have to learn?

How am I ever going to get through this?

You win, when you aren't afraid to lose. The difference between great and average is how often you take risks. We should all accept risk as a normal part of living. We need to view risk as a part of the process of exploring your world.

As they say; if you learn the lesson, then you never lost!

Forget about the consequences of taking chances. Risk opens you to what can only ever be a temporary change in direction - one that can set you straight for your next success. If you're brave enough to take a risk, to temporarily live outside of your comfort zone - even for a short period of time - you're big enough to win. And strong enough to be the true Champion of your own world!

*7 time World Champion creating Champion Mindsets® with Taylor-Made Solutions!*

Take the risk and make change. Remember the saying: If nothing changes, nothing changes!

**On CD 6 learn:**

- How to be comfortable out of your comfort zone
- How to get up and get going when the going gets tough
- How to maintain positive actions over emotion reactions
- Define your resilience factor
- Be able to imagine yourself successful whilst stuck in the mess or at your lowest
- How to gain the learning from negative experiences or times when you failed
- How to turn negative into positives
- How to create opportunities out of risk
- How to bounce back from rejection, failure or setbacks and prevent burnout.

Incorporate the two human behavioural traits of Mental Toughness into your Champion armour and be capable of turning what some people live their lives surrounded by - Stress and Mess - into totally positive Success.

Guaranteed to teach you how to hang in there towards the finish line....long after everyone else has quit.
